Why Choose Provincial Granite Works?

We encourage the creation of a memorial as unique as the individual it is commemorating.

Provincial Granite Works is unique in that it is one of the only granite developers who provides a colourful approach to the monument industry by painting its memorials. If you take a closer look at our coloured monuments you can see the different tones and shades of colour which have all been applied by hand. Our paints are guaranteed for 20 years. Unsurpassed in the industry.

Provincial Granite Works takes pride in the quality of work we provide and materials we use, paying special attention to each individual customer's needs and requests. We would like to help you make your monument tell a story. A tribute to a friend or loved one.

We hope you will find this brochure helpful in making your decision. The next time you are in a cemetery in Manitoba or Saskatchewan look for one of our monuments. You can be assured that every one of our monuments has been created with pride in quality.

We are here to create whatever monument your imagination can design.

At Provincial Granite Works your imagination is the only limitation!
